

It is in moments of crisis that our goal to strengthen and build resilient communities is truly tested. In the aftermath of Hurricane Helene, we saw the immediate need to provide essential resources to families struggling to recover.

In 2025, we are building resilient communities, one family at a time, and we invite you to join us in this campaign.

Thank you for your unwavering support and for helping us build resilient families and communities throughout Western North Carolina.

Dear Friends and Community Partners of Region A Partnership for Children,

In September 2024, Hurricane Helene's devastating impact on our region served as a stark reminder of the unpredictable challenges families face. At Region A Partnership for Children, we witnessed firsthand the strength and resilience of our community, but also the urgent need to bolster our preparedness for future emergencies.

Driven by our mission to improve the quality of life for young children and families, we are launching a campaign to provide emergency preparedness kits to families across our region.

Our goal is to raise \$10,000 to ensure that our most vulnerable families have the necessary supplies to face future challenges with wisdom and confidence. These kits will contain essential items such as:

- First-aid supplies
- Non-perishable food and water
- Flashlights, radios, and batteries
- Emergency blankets
- And other vital resources

We believe that by investing in the preparedness of our families, we are investing in the future of our communities. As we strive to create a nurturing and loving environment for every child, we must also ensure their safety and security.

Your generous contribution will directly impact the lives of families in our region, empowering them to face future challenges with greater resilience.

Please consider making a donation today. Every dollar brings us closer to our goal of \$10,000.

You can donate online at rapc.org or by mailing your check and the form below to:
